## INFORMATION REPORT

SECRET

This Document contains information affecting the National Defense of the United States, within the meaning of Title 18, Sections 793 and 794, of the U.S. Code, as amended. Its transmission or revelation of its contents to or receipt by an unauthorized person is prohibited by law. The reproduction of this form is prohibited.

COUNTRY East Germany REPORT [REDACTED] 25X1

SUBJECT Hog Cholera in East Germany DATE DISTR. 19 May 1954

NO. OF PAGES 1

25X1 DATE OF INFO. [REDACTED]

REQUIREMENT [REDACTED] 25X1

PLACE ACQUIRED REFERENCES [REDACTED] 25X1

**BY CABLE**

1. The hog cholera harassing East Germany is not communicable to human beings. The cases of food poisoning reported to have occurred in Leipzig were probably the result of nonsterile handling and decomposition of the pork meat.
2. Available information indicates that hog cholera is a not inconsiderable problem in East Germany. During the third quarter of 1953, 40,337 hogs had to be slaughtered prematurely as an emergency measure because of hog cholera.
